

LEGI B FENCE

THE LEGI-B FENCE WAS ESPECIALLY CONSTRUCTED AS A BALL-STOPPING SCREEN. SINCE THE STRESSES ARE MUCH HIGHER THAN IN CONVENTIONAL FENCES, BALL-STOPPING SCREENS MUST BE EXTREMELY ROBUST, BUT SHOULD HAVE A CERTAIN DEGREE OF ELASTICITY. LEGI HAS COMBINED HEAVY-DUTY POSTS, MESH AND HARDWARE WITH SAFETY, ECONOMY AND FREEDOM FROM MAINTENANCE. THE LEGI-B FENCE IS HOT-DIP GALVANIZED AFTER FABRICATION, COATED WITH UV- STABLE, THERMALLY-SET POLYESTER POWDER COAT, LEGI LEADS THE INDUSTRY IN CORROSION PROTECTION.

PLAN VIEW

Two mesh panels, post and connecting hardware.

LEGI-B Fence- Standard fence.

LEGI-B.i Fence- Has additional patented rubber bushing attached to hardware for reducing structure-borne sound and vibration.

LEGI-B.v Fence- Has reinforced posts designed for absorbing the horizontal forces of heavy greenery on fence.

LEGI-B.v.i.- Has all of the above.
