

# LEGI-R INSTALLATION INSTRUCTIONS

**Set the LEGI mesh panels onto the LEGI-R posts at 2500 on-center and attach the clamping bar.**

**SET FENCE POSTS AT STANDARD SPACING OF 2500mm(8'-2 7/16") ON-CENTER OR AT OTHER ON-CENTER POST SPACING PER PROJECT REQUIREMENTS.**

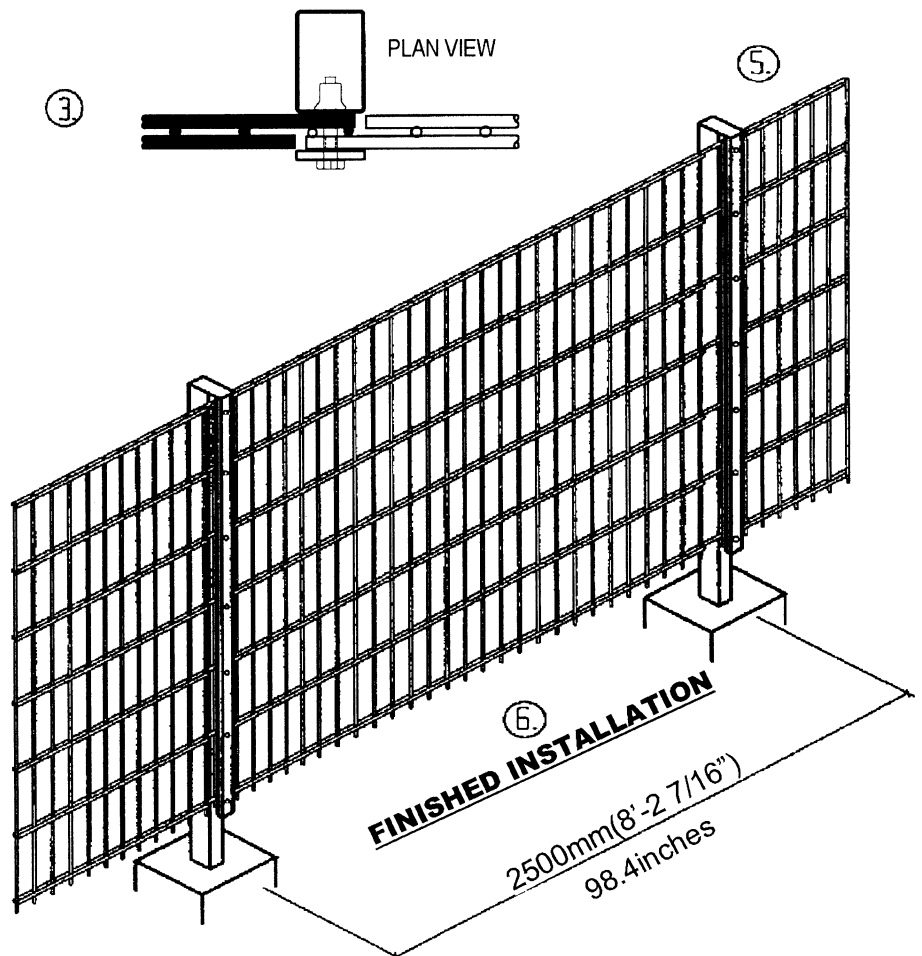

1. Set mesh panel section in place behind R post.
2. Set next mesh panel in place.
3. Align and set clamp bar in place, with one bolt for every horizontal rod.
4. Bolt in place the clamp and mesh panels (see plan view below).
5. Assemble the next mesh panels per above until complete.
6. Finished installation.

## Notes:

The mesh panel can be erected with the pickets pointing up or down, as required.

See page 2 for stepped fence installation instructions.

Touch-up paint is provided for onsite application.
